

Escalate Textile Exports of Pakistan in Collaboration with Export Promotion Bureau of Pakistan

Provide consultancy services and formulate strategies and executable plans that will boost the Pakistan Textile Industry in to view of fashion designers and clothing manufacturers.

Conceptually, the Pakistan textile industry is assumed to be limited by a disproportionately small amount of intellectual capital from the U.S. and Europe. The global textile market is at least \$600 billion (USD) but Pakistan's share is less than two-percent (\$10 billion with \$6 billion to the U.S.) despite accounting for at least ten-percent of global cotton fiber production.
