

Development of a Wellness Center

Develop properties in the SAARC and the Middle East regions that will change the temporary accommodations paradigm for patients traveling for medical care, leisure, health care shopping, or fitness and wellness care. These properties will have a wellness "mixed use theme", including a health club, wellness clinics, a diet and nutrition center, health care retailing, medicare facilities, a patient and physician's training center, motion picture theater(s) focused to health, leisure, beautification and fitness programs, and an exhibition center to promote year-round wellness products and services, and a high class 50 beds fully equipped wellness hospitality center.
